

# RESCUE TOWING AND EMERGENCY RESPONSE

## SAFE AND EFFECTIVE SOLUTIONS

Foss has been engaged in rescue towing support since its earliest days, more than 130 years ago. As a go-to provider we have a proven track record of success in critical ocean operations. We specialize in all aspects of towing, and are unsurpassed in our ability to effect salvage and rescue tows, including:

- Dead ship tow
- Open ocean transport
- Lighterage
- Global transport, including all breaking facilities
- Disaster relief

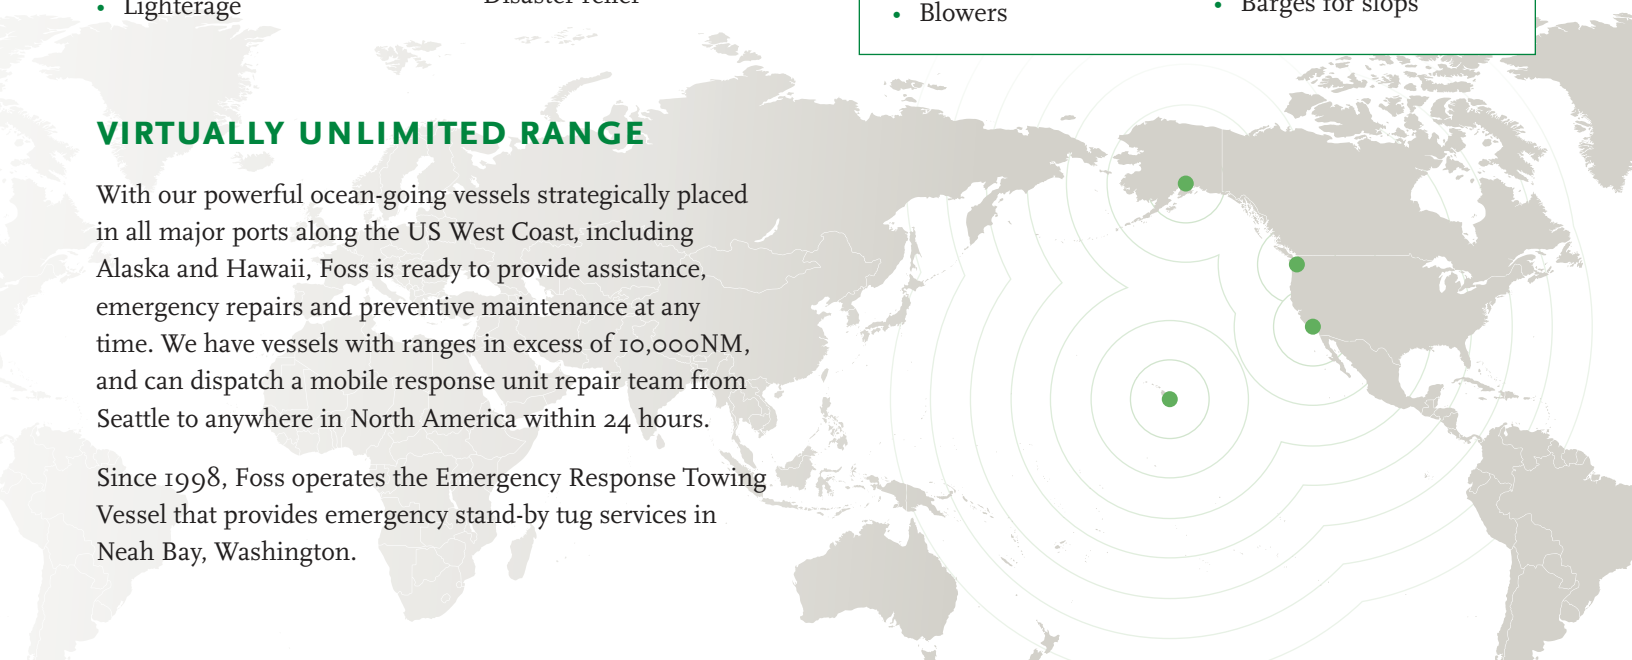

The Foss team of mariners, shore side personnel, managers and supporting operations personnel possess extensive experience and training in the Incident Command System (ICS), and related safety procedures and precautions. Foss provides shipyard, engineering, marine and ancillary support in any response situation, including:

- Firefighting
- Ballast pumping
- Blowers
- Boom deployment and tending
- Barges for slops

## VIRTUALLY UNLIMITED RANGE

With our powerful ocean-going vessels strategically placed in all major ports along the US West Coast, including Alaska and Hawaii, Foss is ready to provide assistance, emergency repairs and preventive maintenance at any time. We have vessels with ranges in excess of 10,000NM, and can dispatch a mobile response unit repair team from Seattle to anywhere in North America within 24 hours.

Since 1998, Foss operates the Emergency Response Towing Vessel that provides emergency stand-by tug services in Neah Bay, Washington.

## OCEAN RESCUE FLEET

Vessel Name	LOA (ft)	Breadth (ft)	Draft	BHP	Bow Winch	Tow Winch	Bollard Pull (Ahead)
